IFAC Small and Medium Practices Forum

ABOUT THE FORUM

Please join us in Kampala, Uganda for this important international forum on Wednesday, June 5, 2013, co-hosted by the **International Federation of Accountants (IFAC), the Institute of Certified Public Accountants of Uganda (ICPAU), and the Pan African Federation of Accountants (PAFA).**

Registration for this forum is free. Attendees cover their own travel and hotel accommodations.

The one-day forum will bring together regional and national accountancy organizations, standard setters, and other interested parties to discuss how to address the challenges and opportunities facing small- and medium-sized practices (SMPs) and small- and medium-sized entities (SMEs), with a focus on those in Africa.

The forum has the following objectives:

- Unite the global SMP community
- Contribute to the prioritization of future IFAC SMP initiatives
- Facilitate discussion and debate, and the sharing of best practices and ideas
- Provide opportunities for networking and collaboration

The agenda will include discussion on the following key topics:

- Accommodating SME/SMP needs in shaping regulation and professional standards
- How SMPs can best serve SMEs in an ever-changing marketplace
- IFAC's strategy for supporting SMPs

WHO SHOULD ATTEND

Professional accountancy organizations, both national and regional, are invited to each send up to ten representatives. Organizations are encouraged to send delegates who are responsible for the interests of their SMP/SME constituents including those with responsibility for member services, and technical and professional standards. In addition, representatives from donor agencies, the regulatory community, associations of SMEs, the private sector, and other parties interested in the role and value of SMPs and their contributions to the SME community are invited to participate.

FORUM CO-HOSTS: ICPAU AND PAFA

ICPAU is the national body for professional accountants in Uganda and a member of IFAC. ICPAU's focus is to produce individuals who exhibit professional excellence, integrity, a commitment to serve, and good governance, and who are socially responsive to the environment in which they operate.

PAFA's mission is to work in the public interest by leading and developing the accountancy profession in Africa and delivering value to its members. PAFA provides a forum for co-operation and assistance among African professional accountancy organizations for the further advancement of the status of the accountancy profession and encouragement for and assistance with the formation and development of national professional accountancy organizations in Africa.

We thank ICPAU and PAFA for their willingness to co-host the forum and for their valuable contribution to the event's success.
